

The Charles F. Trainor Award by Col. Grant Smith of the Savannah District USACE presented to Ed Modzelewski and ATM

“for your participation on the project team that did the impossible! By using new and innovative processes the Savannah Harbor Expansion Project Feasibility Study Team completed a feasibility study on a compressed schedule giving the project an opportunity to be included in the Water Resources Development Act of 1998. Typically, the time required to complete a study of this size and complexity is at least three years. The team did it in just 14 months!”
